

The advanced laser multifunction, enhancing business communication and productivity

Mid Range

Get professional laser printing, faxing, copying and colour scanning from this complete print and communication centre. The *imageCLASS* D1150 is stylish, easy to use and ultra efficient while providing maximum productivity for a minimum investment.

Output speed is 30 pages per minute for printing and copying and with an enhanced print resolution of 1200 x 600dpi it means you'll enjoy both speed and quality without compromise.

With a 50-page duplex Automatic Document Feeder and built in duplex printing it will also enable you to save on paper costs and time, all while giving your business the competitive edge.

Key Features

All-in-One cartridges Toner Cartridges

- The D1150 utilises a drum cartridge in which an "Intermediate Transfer Unit", "Photosensitive Drum", and "Waste Toner Container" that are normally individual consumables, are all combined, meaning less consumables to stock, less fuss and high reliability.

Low Power Consumption and Quick Start Up

- By adopting Canon's unique On-Demand Fixing System, the D1150 achieves low power consumption of less than 3 watts in standby and quick start-up, with first page out in less than 8 seconds. This enables instantaneous heating of the fusing heater only before printing, saving warm-up time. The D1150 is always ready to print – saving you time and money.
