TRIM, ZOOM INTO OR ROTATE YOUR IMAGES

Direct Printing with Canon digital cameras and printers allows you to change the composition of your images before you print. You can trim edges, zoom into details or even rotate the image 90°. Once you are happy with your composition, you can print it through the Card Photo Printer CP-200.

PRINTS THAT LAST

On top of superb colour reproduction, each print is protected by a special coating to resist against scratches and fading. The result gives a real photo quality and feel.

SMALL AND PORTABLE

This compact and lightweight Card Photo Printer is portable and easy to set up anywhere in the home. A car adaptor kit is also available so you can connect, select and print in the car.

GET CONNECTED

The Card Photo Printer CP-200 connects directly to Canon digital cameras. As well as being compatible with Canon Direct Print, the Card Photo Printer CP-200 is also compatible with PictBridge*, the new Direct Print standard. This enables all digital cameras that support PictBridge to connect to the Card Photo Printer CP-200.

In addition, you can also print through your PC or Mac, as printer drivers and Canon software are included.
