Disclaimers

1. Ink droplets can be placed with a pitch of 1/4800 inch at a minimum
2. Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734, excluding time to print the first set. Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.
3. Paper types NOT supported for borderless printing are as follows: Plain Paper, High Resolution Paper, Photo Stickers, T-Shirt Transfer, Envelope
4. When printing ISO/JIS-SCID N2 pattern on A4 size Plain Paper using default settings.
5. A computer that complies with Hi-speed USB standard is required

* **Plain paper:** Declared yield values in accordance with ISO/IEC 24711. Values obtained by continuous printing on standard A4 paper.

4"x6" photos: Obtained when printing Canon standard patterns continuously with the default settings of testing paper using Windows Vista printer driver in borderless printing mode and Windows Vista Home Premium Photo Gallery. The figures above are an average value, measured when printing continuously using the ink immediately after it is unsealed, until the ink is out.

Ink yield may vary depending on photos/documents printed, applications software used, print mode and type of paper used. This should be used as a guide only and does not take into account ink that might be used for head cleaning or head refreshing to maintain printer performance. Please visit our website for further details.
