Premium high gloss paper for brilliant photo prints

Let your imagination run wild at PIXMAprintables.com.au! Find hundreds of free and fun printable ideas, projects and things that you can print with your PIXMA, perfect for every day.

***Plain paper:** Declared yield value in accordance with ISO/IEC 24711. Values obtained by continuous printing.

4"x6" photos: When printing Canon standard patterns continuously with the default settings of testing paper using Windows 7 printer driver in borderless printing mode and Windows 7 Home Premium's Windows Photo Viewer. Declared yield value determined based on Canon standard method referring to ISO/IEC 24711. The figure above is an average value, measured when printing continuously using the ink immediately after it is unsealed, until the ink is out. Ink yield may vary depending on photos/documents printed, applications software used, print mode and type of paper used. This should be used as a guide only and does not take into account ink that might be used for head cleaning or head refreshing to maintain printer performance. Please visit our website for further details.

Disclaimers

1. Ink droplets can be placed with a pitch of 1/9600 inch at minimum.

canon.com.au

PIXMA MG6360

All-in-One Photo Inkjet Printer

2. Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734. Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.
3. Paper types NOT supported for borderless printing are as follows: Plain Paper, High Resolution Paper, Photo Stickers, T-Shirt Transfer, Envelope, Fine Art Paper "Photo RagTM" (FA-PR1), Other Fine Art Paper.
4. The paper size that can be fed from the cassette are A4, A5, B5, LTR size.
5. Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.
6. The fastest speed in Hi-Speed USB on Windows PC. Transfer time to computer is not included.
7. Color document scan speed is measured with ISO/IEC 24735 Annex C Test Chart A. Film scan speed is measured with Canon Standard Chart. Scan speed indicates the time measured between pressing the scan button of the scanner driver and the on-screen status display turns off. Scan speed may vary depending on system configuration, interface, software, scan mode settings and document size etc.
8. Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warming up time.
9. 1-11 in US, CND, LTN, BRA and TW.
10. When printing ISO/JIS-SCID N2 pattern on 4"x6" Photo Paper Plus Glossy II using default settings.
11. Acoustic Noise is measured based on ISO7779 standard.
12. Copy: When copying ISO/JIS-SCID N2 (printed by inkjet printer) on A4 size plain paper using default settings.
13. Scan related applications on PIXMA Cloud Link is only available when genuine Canon ink cartridges are in use.
