
ACCOUNTS PAYABLE JUST GOT MORE ACCURATE

IT ALL COMES
TOGETHER

By automating your accounts payable process with Canon you can avoid time-consuming bottlenecks and errors, costly late fees and the stresses associated with manual data entry.

THE ACCOUNTS PAYABLE SOLUTION FOR BUSY BUSINESSES

There's more to accounts payable than simply paying invoices on time. Canon's Accounts Payable solution can help your business avoid reporting errors, increase efficiency and foster better relationships with suppliers.

Save time

Digitising accounts payable processes delivers big efficiency gains. With Smart Capture AI that automatically recognises and records critical invoice information from any source, automated indexing, and cloud-based storage, Canon's Accounts Payable solution will save you time from day one.

Reduce invoicing costs

The cost of processing an invoice relates to the amount of man hours spent on it. By automating the invoicing process with smart data capture, file conversions and mobile approvals, the time employees spend on each invoice decreases and the related costs are reduced.

Improve accuracy

Manual processes are always prone to human error. Canon's smart data capture technology works in concert with user-friendly data verification tools to eliminate the potential for costly errors. That means no more triple-checking every entry.

Access anywhere

Accounts payable in your pocket? No problem. Whether you need to pay an invoice, check a supplier or approve an invoice, Canon's Accounts Payable solution has you covered - wherever you are. You can even convert a smartphone photo of an invoice to a fully editable and searchable file in seconds. It doesn't get much more convenient than that.

Integrate easily

Some things were just meant to be. Canon's Accounts Payable solution integrates seamlessly with a range of third-party apps, business systems and cloud services, including Databuild, JobPac and Xero. You don't have to worry about integration, our solution works out of the box.

ONE SOLUTION, SO MANY APPLICATIONS

Canon's Accounts Payable solution is a feature-rich offering that integrates with existing systems and covers every aspect of your AP processes, from approvals to reporting.

- ✓ Approvals from anywhere
- ✓ Bottleneck reporting
- ✓ JobPac and Databuild integration
- ✓ Mobile compatibility
- ✓ Permission-based access
- ✓ PO creation
- ✓ Smart capture

and much more.
